

COURSES

Data For All 2024 Course Catalog

Training Course	Duration	Per Participant Rate	Description
TC-DFA-FC01 Data For All Fundamentals of Data Management	3 days	1,500	<p>This foundational course will enable statisticians and data administrators to manage data warehouse(s) using DFA Data Manager. This workshop will focus on topics such as Area management, Metadata management, User management, Data Quality, and data warehouse management. The level and detailed content of the workshop will be discussed and agreed upon with national counterparts.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians/Database Administrators with understanding of development indicators and data <u>Prerequisite(s):</u> n/a <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 15 hours</p>
TC-DFA-FC02 Data For All Fundamentals of Data Management - Refresher Training	1.5 days	750	<p>This refresher course will review and going into more depth on how to manage data warehouse(s) using DFA Data Manager. This workshop will focus on data warehouse management. The level and detailed content of the workshop will be discussed and agreed upon with national counterparts.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians/Database Administrators with understanding of development indicators and data <u>Prerequisite(s):</u> DFA TC-FC01 Data For All Fundamentals of Data Management <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 7.5 hours</p>
TC-DFA-FC03 Data For All Fundamentals of Dashboard Builder	3 days	1,500	<p>This foundational course will enable designated focal points to manage and administer the DFA Dashboard builder. At the conclusion of the workshop, participants will be able to design, develop and publish their own dashboards.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Planners with understanding of development indicators and data <u>Prerequisite(s):</u> n/a <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 15 hours</p>
TC-DFA-FC04 Data For All Fundamentals of Dashboard Builder - Refresher Training	1.5 days	750	<p>This refresher course will review the use of DFA Dashboard builder. At the conclusion of the workshop, participants will be able to manage DFA dashboards and utilize DFA dashboard builder to create and deploy dashboards based on user needs.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Planners with understanding of development indicators and data <u>Prerequisite(s):</u> DFA TC-FC03 Data For All Fundamentals of Dashboard Builder <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 7.5 hours</p>
TC-DFA-FC05 Data For All Fundamentals of Data Dissemination	3 days	1,500	<p>This foundational course will enable designated focal points to manage and administer the DFA portal, mobile app, Visualizer and dashboard.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Planners with understanding of development indicators and data <u>Prerequisite(s):</u> TC-FC11 Data For All Fundamentals of Data Management <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 15 hours</p>

	TC-DFA-FC06 Data For All Fundamentals of Data Dissemination- Refresher Training	1.5 days	750	<p>This refresher course will review how to manage and administer the DFA mobile apps, Visualizer and dashboard.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Planners with understanding of development indicators and data <u>Prerequisite(s):</u> DFA TC-FC05 Data For All Fundamentals of Data Dissemination <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 7.5 hours</p>
	TC-DFA-FC07 Data For All Visualizer for Decision-Making	1 day	1,000	<p>This foundational course will ensure users have the knowledge and skills to select indicators, design and edit visualisations and download data and objects.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> n/a <u>Prerequisite(s):</u> n/a <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 5 hours</p>
	TC-DFA-FC08 Content Management Systems	3 days	1,500	<p>This foundational course will ensure system administrators have the knowledge and skills to administer, manage and use open source content management systems (CMS), such as WordPress and Drupal. The course will be catered to the CMS deployed for the project.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> IT System Administrators, Content Managers <u>Prerequisite(s):</u> n/a <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 15 hours</p>
	TC-DFA-FC09 Content Management Systems - Refresher Training	1.5 days	750	<p>This refresher course will review how system administrators can administer, manage and use open source content management systems (CMS), such as WordPress and Drupal. The course will be catered to the CMS deployed for the project.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> IT System Administrators, Content Managers <u>Prerequisite(s):</u> DFA TC-FC08 Content Management Systems <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 7.5 hours</p>
DFA	TC-DFA-FC10 DFA Monitoring for National Strategic Plan Monitoring	3 days	1,800	<p>This training focuses on use of DFA Monitoring to enable the monitoring of implementation of strategic and operational plans. This training applies results-based monitoring to track key performance indicators linked to plan components. Reliable data ensure evidence-based decisions and foster accountability of all education stakeholders. Sessions of the training include configuring plan templates, definition plan components in both the Planning and Monitoring (activities, outputs, outcomes, indicator baselines and targets, etc.) phases and use of the tool for multi-user / multi-level reporting on plan implementation, including measurement of deviations from planned activities, objectives, and goals, as well as formative and summative evaluation.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Central and regional M&E officers <u>Prerequisite(s):</u> Knowledge of the M&E matrix, its structure and indicators. <u>Mode of Delivery:</u> This training is recommended to be delivered in person, but it can be delivered virtually <u>Total number of expected training hours:</u> 15 hours</p>
DFA	TC-DFA-FC11 DFA Monitoring for Management of a Federated Monitoring Platform	5 days	3000	<p>This course is designed for system administrators responsible for the management and maintenance of a federated monitoring platform. This training focuses on use of DFA Monitoring to enable system administrators to develop, monitor and report on implementation of multiple strategic and operational plans. This training applies results-based monitoring to track key performance indicators linked to plan components. Reliable data ensure evidence-based decisions and foster accountability of all education stakeholders. Sessions include configuration of plan templates, definition of plan components in Monitoring (activities, outputs, outcomes, indicator baselines and targets, etc.) and use of Monitoring for multi-user / multi-level reporting on plan implementation, including measurement of deviations from planned activities, objectives, and goals, as well as formative and summative evaluation.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Central and regional M&E officers, System Administrators <u>Prerequisite(s):</u> TC-DFA-FC11 DFA Monitoring for Management of a Federated Monitoring Platform <u>Mode of Delivery:</u> This training is recommended to be delivered in person, but it can be delivered virtually <u>Total number of expected training hours:</u> 25 hours</p>

DFA	TC-DFA-FC12 DFA Monitoring Refresher Course	1.5 days	900	<p>This refresher course will review how system administrators can administer, manage and use DFA Monitoring. The course will be catered to the DFA Monitoring instance deployed for the project.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> IT System Administrators, Content Managers <u>Prerequisite(s):</u> DFA Monitoring for Management of plans <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 7.5 hours</p>
DFA	TC-DFA-FC13 DFA Mapper Fundamental course	2 days	1,000	<p>This course is designed for data administrators responsible for the management and maintenance of the DFA Map. This training focuses on the use of DFA Map to enable data administrators manage and update the content of the DFA Map through an admin tool. This training requires a knowledge of the programme and also on how the content needs to be presented - in categories. Sessions include configuration of data fields, adding new project/infrastructure content, editing existing content in case information has been updated.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Programme Officer, Database Admin <u>Prerequisite(s):</u> NA <u>Mode of Delivery:</u> This training is recommended to be delivered in person, but it can be delivered virtually <u>Total number of expected training hours:</u> 10 hours</p>
DFA	TC-DFA-FC14 DFA Survey Fundamental course	5 days	3000	<p>This foundational course will enable designated focal points to manage and administer the DFA survey that is - Define the GID for indicators and subgroups, manage the Indicators in the Data Manager, design the survey on the Survey admin tool. Users will also learn on how to manage their areas, time periods and their users. The course will be catered for the DFA survey deployed project.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Programme managers with understanding of development indicators and data <u>Prerequisite(s):</u> DFA Data Manager, Proficiency in Excel <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 25 hours</p>
DFA	TC-DFA-FC15 DFA Survey Refresher Course	3 days	1800	<p>This refresher course will review how system administrators can administer, manage their survey using the DFA tools. The course will be catered for the DFA survey deployed project.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Programme managers with understanding of development indicators and data <u>Prerequisite(s):</u> Prior knowledge of the DFA Survey and Data Manager <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 15 hours</p>
DFA	TC-DFA-FC16 Data For All Fundamentals of Profile Builder	3 days	1500	<p>This foundational course will enable designated focal points to manage and administer the DFA Profile builder. At the conclusion of the workshop, participants will be able to design, develop and publish their own data profiles.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Planners with understanding of development indicators and data <u>Prerequisite(s):</u> n/a <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 15 hours</p>
DFA	TC-DFA-FC17 Data For All Fundamentals of Profile Builder - Refresher Training	1.5 days	750	<p>This refresher course will review the use of DFA Profile builder. At the conclusion of the workshop, participants will be able to manage DFA profiles and utilize DFA profile builder to create and deploy profiles based on user needs.</p> <p>Certificate awarded.</p> <p><u>Participant Profile:</u> Statisticians and Planners with understanding of development indicators and data <u>Prerequisite(s):</u> DFA TC-FC03 Data For All Fundamentals of Dashboard Profile builder <u>Mode of Delivery:</u> This training can be delivered in person or virtually <u>Total number of expected training hours:</u> 7.5 hours</p>
